

800W Hammer Drill for Concrete and Masonry

This 800W hammer drill is a versatile tool designed for drilling into concrete, brick, and masonry. The drill offers multiple modes of operation, including rotary drilling, hammer drilling, and chiseling, making it suitable for a wide range of applications.

Product Overview

Professional Performance in Masonry

This 800W hammer drill is a robust and versatile power tool engineered for demanding drilling tasks in concrete, brick, and masonry. Featuring a high-impact motor, it delivers 3.0J of impact energy per stroke, ensuring efficient material removal. With multiple operation modes including rotary drilling, hammer drilling, and chiseling, it is an essential tool for construction and renovation projects.

Technical Specifications

Rated Input Power	800 W
No-load Speed	0-1100
Impact Rate	4900 bpm
Impact Energy Per Stroke	3 J

Drilling Capacity

Max Drilling Diameter

Material	Max Diameter
Concrete	26mm
Steel	13mm
Wood	30mm

Optimum Drilling Range	6-18mm
------------------------	--------

Included Accessories

Box Contents

- 3pcs Drills (6/8/10mm)
- 1pc Flat Chisel
- 1pc Point Chisel
- 1pc Depth Ruler

Key Features

Tool Highlights

Variable Speed Control • Depth Rod Included • Multi-Mode Operation • Ergonomic Grip
