

800W Industrial Water Chiller

This is a refrigeration type industrial water chiller with 800W cooling capacity. It is designed for precise temperature control in various industrial applications.

Product Overview

Industrial Precision Cooling

This air-cooled industrial water chiller is engineered for consistent thermal management in demanding laser device applications. It utilizes an integrated refrigeration cycle involving a compressor, condenser, evaporator, and circulating pump to effectively transfer heat to the ambient air. Designed for reliability and efficiency, the unit features an adjustable temperature control system to maintain optimal operating conditions.

Performance Metrics

Cooling Capacity

800 W

Cooling Capacity

Flow Rate	10 - 16 L/min
Maximum Lift	10 - 25 M

Technical Specifications

Pump Power Options

- 0.03 KW
- 0.051 KW
- 0.1 KW

Tank Capacity	6 L
Refrigerant	R-134a

Certifications

Compliance

CE • RoHS

Physical Dimensions

Weight Specifications

Type	Weight
Net Weight	24 Kg
Gross Weight	27 Kg

Unit Dimensions (L x W x H)	58 x 29 x 47 cm
-----------------------------	-----------------

Packing Dimensions (L x W x H)	70 x 43 x 58 cm
--------------------------------	-----------------
