

80kW/100kVA Power Generator

This power generator provides safe and reliable performance. It is easy to operate and maintain, with spare parts available worldwide.

Product Overview

Reliable Power Generation

This 80kW/100kVA power generator is engineered for consistent and efficient performance in demanding environments. Featuring a high-performance engine and alternator combination, it delivers stable power output suitable for industrial, commercial, and residential backup applications. The unit is built to rigorous quality standards, ensuring long-lasting operation and dependable service when you need it most.

Technical Specifications

Rated Power

80 kW

Rated Power

100 kVA

Rated Power

Voltage Options

- 220/380V
- 230/400V
- 240/415V
- 254/440V

Standby Power 90 kW

Rated Speed 1500 rpm

Frequency 50 Hz

Power Factor 0.8

Components

Engine Model	6BT5.9-G2
Alternator Model	UCI274C
Winding Connection	3-phase, 4-wire

Certifications

Quality Standards ISO 9001, ISO 14001, OHSAS 18001
