

# 80L Chest Freezer

This 80L chest freezer provides a compact and efficient refrigeration solution. It offers ample storage space with a small footprint and features durable construction and energy-efficient operation.

## Overview

### Compact Efficient Cooling

The 80L Chest Freezer provides a reliable and space-efficient solution for frozen storage needs. Designed with a durable build and effective insulation, it maintains temperatures below  $-18^{\circ}\text{C}$ , ensuring food safety and quality. Its compact footprint makes it an ideal choice for businesses or homes where space is at a premium but performance is essential.

## Performance & Technical

### Energy Consumption Class

Class B

Freezer Volume	80 L
Temperature	$<-18^{\circ}\text{C}$
Refrigerant	R134a
Foam Insulation	Cyclopentane (70mm)

## Electrical

Rated Voltage	220 V
Frequency	50-60Hz

## Dimensions & Logistics

Product Dimensions	535 x 565 x 825 mm
Packing Dimensions	570 x 590 x 875 mm
Weight	28 KG
40ft H.Q. Capacity	240 PCS

## Compliance

Approvals	CE
