Product Overview

Powerful 3000W triple-motor system for high-output suction.

High-Performance Wet & Dry Cleaning

This professional-grade 80L vacuum cleaner is engineered for demanding industrial and commercial environments. Featuring a robust triple-motor system and innovative automatic HEPA filter cleaning technology, it ensures consistent suction power and minimal downtime. Designed to handle both wet and dry debris, it provides a versatile, durable solution for comprehensive facility maintenance and dust extraction.

Key Performance Metrics

3000 W

Rated Power

80 L

Tank Capacity

17 Kpa

Vacuum Ability

Certifications

GS, CE, EMC, ROHS, UL

Technical Specifications

Durable stainless steel tank designed for industrial longevity.

Technical Specifications

Feature	Specification
Voltage/Frequency	220-240V/110-120V; 50-60HZ
Material	Stainless Steel
Cord Length	5.5m
Hose Diameter	32mm
Hose Length	2.5m

Features & Capabilities

Advanced HEPA filtration ensures clean air exhaust during operation.

Core Features

- Automatic HEPA filter cleaning system
- Three 100% copper motors for maximum output
- Automatic synchronization socket for power tools
- Optimized cooling duct design
- Heavy-duty stainless steel tank
- Enhanced mobility with large rear and front wheels

Included Accessories

Optional Feature & Accessories

Comprehensive accessory kit for versatile cleaning applications.

Included Accessories

- 1x 2.5m Hose (32mm)
- 2x Metal tubes
- 1x Long-square wet & dry brush
- 1x Big nozzle
- 1x Round brush
- 1x Foam filter
- 1x Cotton bag
