

850W Heavy Duty Angle Grinder

This is a heavy-duty angle grinder with an 850W motor. The angle grinder is suitable for grinding, cutting, and polishing various materials.

Overview

Professional Performance

This 850W heavy-duty angle grinder is engineered for versatility and durability in demanding work environments. Designed for efficient grinding, cutting, and polishing tasks, it balances raw power with ergonomic handling. Its robust construction ensures reliability for both professional trade applications and intensive DIY projects.

Technical Specifications

Power Output

850 W

Rated Power

Machine Weight	1.95 kg
Machine Weight (Imperial)	4.34 lbs

Features

Safety Equipment

- Integrated safety guard
- Debris protection
- Ergonomic handle

Primary Applications	Grinding, Cutting, Polishing
