

85W Slim LED Driver 12V

This slim LED driver provides a constant 12V output with a maximum power of 85W. It is designed for LED modules.

Overview

Compact Power Solution

This 85W Slim LED Driver is engineered for compact lighting applications, featuring an ultra-thin 15mm profile that integrates seamlessly into tight spaces like cabinets and display units. It provides reliable 12V DC output and is designed specifically for LED modules. With universal input voltage and essential safety certifications, it ensures stable and efficient performance for professional lighting setups.

Electrical Specifications

Performance Metrics

85 W Output Power	7 A Output Current	12 V Output Voltage
-----------------------------	------------------------------	-------------------------------

Input Voltage Range	100-240V AC 50/60Hz
Max Input Current	0.8 A
Power Factor	>0.95
Max Output Voltage	12.4 V

Physical and Environmental

Recommended Applications

- LED Lighting Modules
- Cabinet Lighting
- Wine Cabinet Lighting

Thickness	15 mm
Ambient Temperature (Ta)	25 °C

Compliance

Certifications

SELV • RoHS • CE
