

# 87.6V 11A LiFePO4 Battery Charger for E-bikes

This battery charger is designed for LiFePO4 batteries, providing efficient charging for e-bikes, motorcycles, and scooters. It features LED indicators for charging status and carries CE certification.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency LiFePO4 Charging Solution

The C1200 series is a robust, high-performance battery charger specifically engineered for 24S LiFePO4 battery systems. Housed in a durable aluminium alloy shell, this unit delivers a consistent 963.6W output, making it an ideal power solution for electric bikes, scooters, motorcycles, and golf carts. With its versatile dual-voltage input capabilities and CE certification, it offers reliable, safe, and efficient charging for professional and commercial applications.

## Electrical Specifications

### Output Performance

**87.6 V**

Output Voltage

**11 A**

Output Current

**963.6 W**

Output Power

**Input Voltage Range** 110-132VAC / 200-264VAC

**Battery Chemistry & Configuration** LiFePO4, 24S

## Physical & Mechanical

**Physical Dimensions** 264 x 120 x 89 mm

**Net Weight** 2.1 kg

**Housing Material** Aluminium Alloy

## Features & Compliance

### Certifications

CE

### Warranty

12 Months

### Customization

AC/DC plug types can be customized based on request

## Applications

### Compatible Equipment

- Electric Bikes
- Electric Motorcycles
- Electric Scooters
- Cleaning Equipment
- Electric Vehicles
- Golf Carts
