Product Overview

Precision 8mm Feeder Tape Guide

This durable metal tape guide is engineered for 8mm feeders, specifically designed to ensure accurate component placement in automated assembly lines. It is optimized for handling 0805, 0603, and 0402 component sizes, providing reliable tape feeding performance. Built to withstand high-speed operational demands, this component helps maintain consistent production quality.

Compatibility & Specifications

Supported Component Sizes

- 0805
- 0603
- 0402

Part Numbers

N210103441AB • N210103441AA

Material

Metal

Compatible Feeders

CM402 8mm Feeder, CM602 8mm Feeder
