

8T Diesel Forklift Truck

This 8T diesel forklift truck is designed for heavy-duty material handling. It offers high power and torque for efficiently lifting and transporting heavy loads in various industrial environments.

Overview

Heavy-Duty Material Handling

The 8T Diesel Forklift Truck is a robust solution engineered for demanding material handling applications. Featuring a powerful diesel engine, it delivers the high torque and lifting performance required for heavy-duty tasks in warehouses, construction sites, and industrial environments. Its durable chassis and precise hydraulic controls ensure stability and operational efficiency for professional operators.

Performance Metrics

Lifting Capacity

8000 kg
Rated Capacity

Lifting Height Range

3 - 6 meters

Technical Specifications

Power Source

Diesel Engine

Control System

Hydraulic controls for smooth and precise operation

Safety Features

Safety Equipment

- Load sensors
- Emergency braking system

Applications

Industry Suitability

Warehousing, Construction, Industrial
