

9-Inch A24R Reinforced Grinding Wheel

This reinforced grinding wheel has a 9-inch diameter, 1/4-inch thickness, and 7/8-inch arbor hole. Its A24R grit ensures aggressive material removal and a long service life.

Product Overview

High-Performance A24R Grinding Wheel

This T27 DC angle grinding wheel is engineered for superior cost performance and safety in professional metalworking environments. Featuring A24R grit, it offers aggressive material removal and exceptional sharpness for demanding grinding tasks. It is highly versatile, suitable for use on metal, non-ferrous alloys, grey cast iron, and natural materials, making it an essential tool for edge chamfering and surface cleaning.

Technical Specifications

Grit Grade	A24R (Grade 1 A/WA)
Wheel Type	T27 DC (Depressed Center)
Applications	Metal, Non-ferrous metals, Non-ferrous alloys, Grey cast iron, Concrete, Natural stone
