Product Overview

High-Performance Metal Cutting Solution

This 9-inch abrasive cutting wheel is engineered for efficient and precise metal cutting applications. Designed for use with angle grinders and compatible power tools, it provides excellent cutting performance and durability, helping factory users improve work efficiency while reducing overall production costs. The disc ensures clean, consistent cuts with minimal burr formation, making it ideal for demanding industrial and construction environments.

Technical Specifications

Dimensions

9 inch

Diameter

0.125 inch

Thickness

0.875 inch

Arbor Size

Performance Ratings

6640 RPM

Max Speed

80 m/s

Max Peripheral Speed

Compliance & Usage

Compatible Equipment

- Angle Grinders
- Compatible Power Tools

Material Application

Metal

Safety Compliance

EN12413, MPA Certified
