

9-Inch Straight Handle Curved Blade Pruning Shear

This pruning shear has a 9-inch overall length and a straight handle for comfortable use. The curved blade is made of high-quality steel for clean cuts and lasting durability.

Product Overview

Professional Pruning Performance

This 9-inch pruning shear is engineered for heavy-duty gardening and landscaping tasks. Featuring a curved blade design for clean, efficient cuts, it is constructed from high-carbon, drop-forged steel to ensure long-lasting durability. The ergonomic straight handle with a dual-color dipping finish provides both comfort and a secure grip during extended use.
