Product Overview

Professional 9-Inch Torpedo Level

This compact 9-inch torpedo level is engineered for precision leveling in confined spaces, making it an essential tool for plumbers, electricians, and contractors. Featuring a durable construction with an ABS case and an aluminum rail, it is built to withstand demanding job site conditions. The level is equipped with three highly visible vials for accurate plumb, level, and 45-degree readings, while the integrated magnetic edge allows for convenient, hands-free operation on metal surfaces.
