

9 x 1/4 Inch Type 27 Grinding Wheel

This grinding wheel has a 9-inch diameter and 1/4-inch thickness. It is a Type 27 wheel with a 5/8-11 thread.

Product Overview

High-Performance Type 27 Grinding Wheel

This Type 27 depressed center grinding wheel is engineered for professional metalworking, offering an excellent balance of sharpness and durability. It is highly versatile, suitable for grinding grey cast iron, non-ferrous metals, concrete, and natural stone, as well as edge chamfering and cleaning switchboards. Designed for efficiency, this wheel delivers consistent material removal rates and cost-effective performance for demanding industrial applications.

Technical Specifications

Wheel Type	Type 27 (Depressed Center)
Abrasive Grade	1 A / WA
Recommended Applications	Metal Grinding, Non-ferrous Metals, Grey Cast Iron, Chamfering, Surface Cleaning, Concrete, Natural Stone

Performance Metrics

Grinding Efficiency

0.12 ratio

Stainless Steel Grinding Ratio

0.46 ratio

Mid Steel Grinding Ratio
