

90 Degree Flexible Metal Conduit Squeeze Connector

This 90-degree squeeze connector is designed for use with flexible metal conduit (FMC). It provides a secure and liquid-tight connection between FMC and electrical enclosures or boxes.

Overview

Professional Conduit Connectivity

This 90-degree squeeze connector is engineered for reliable termination of flexible metal conduit, as well as aluminum and steel AC and MC cables. Designed for seamless integration with steel outlet boxes and metal enclosures, it ensures a secure and durable electrical pathway. Ideal for indoor electrical installations, this connector provides a robust mechanical connection while maintaining grounding integrity.

Technical Specifications

Compatible Conduit/Cable

- Flexible Metal Conduit (FMC)
- Aluminum AC Cable
- Steel AC Cable
- MC Cable

Installation Location

Indoors Only

Connector Type

90 Degree Squeeze Connector

Trade Size

1/2 inch

Material Properties

Metallic, Corrosion Resistant
