Overview

Versatile Agricultural Performance

This 90 HP 4WD tractor is engineered for diverse agricultural environments, including dry and paddy field applications. It features a robust engine with high torque reserve and a reliable synchronizer gearbox for smooth operation. Designed with operator comfort and durability in mind, it includes an advanced hydraulic system and a high-strength chassis to handle demanding farming tasks efficiently.

Engine & Performance

Rated Power

90 HP

Horsepower

25 %

Torque Reserve

Engine Type 4108

Maximum Traction Force 20.5 kN

Transmission & Drivetrain

Gearbox 12 Forward + 12 Reverse Synchronizer

Drive System 4WD

Hydraulics & Implements

PTO Rotation Speed

- 540
- 1000

Max Lifting Force

20 kN

Three-Point Hitch Category

Category II

Technical Specifications

Total Fuel Capacity

80 L
