

# 900mm Stainless Steel Kitchen Range Hood

This 900mm range hood is constructed from stainless steel. It features a multi-layer filtration system and touch controls for adjusting fan speed.

## Product Overview

### Professional Stainless Steel Range Hood

This 900mm kitchen range hood is engineered from high-quality stainless steel to ensure durability and a sleek, modern aesthetic in professional kitchen environments. It utilizes a double arc design and a specialized double-layer fume separating plate to effectively capture grease and smoke. The unit offers user-friendly operation through a 5-key touch switch system with three distinct speed settings.
