

900mm Stainless Steel Range Hood

This range hood is made of stainless steel 304#/430# and has a width of 900mm. It features two 20W quartz lamps, an electronic switch, and a four-piece filter.

Product Overview

Professional Grade Stainless Steel Range Hood

This 900mm stainless steel range hood is designed to provide efficient ventilation and a sleek aesthetic for professional kitchen environments. Constructed from durable 304/430 stainless steel, it offers robust resistance to heat and moisture. Featuring a powerful 190W motor and a 700m³/h air extraction rate, it ensures a clean and comfortable workspace for commercial or heavy-duty culinary tasks.

Technical Specifications
