

900W 100mm Electric Angle Grinder

The 900W 100mm angle grinder is a versatile tool for grinding, cutting, and polishing. Its 900-watt motor delivers high performance, while the 100mm disc diameter allows for precise material removal.

Overview

Professional Performance Grinder

This 900W 100mm electric angle grinder is designed for high-performance grinding, cutting, and polishing tasks. Engineered for both professional and DIY applications, it features a robust motor that ensures efficiency in demanding metalworking and construction environments. The tool balances power with ergonomic design, providing precise material removal while maintaining user comfort during extended operation.

Technical Specifications

Power Output

900 W

Rated Power

Disc Diameter

100 mm

Features

Safety & Handling

Spindle Lock, Protective Guard, Ergonomic Grip

Applications

Suitable Applications

- Metalworking
- Construction
- General Maintenance
- Grinding
- Cutting
- Polishing
