

# 900W Portable Gasoline Generator

This gasoline generator provides 800 peak watts and 1000 running watts, operating at 95 dBA(4M) noise level. It offers 4.8 running hours at 50% load and features an AC 120V receptacle and overload protection.

## ADDITIONAL IMAGES

## Overview

### Compact Portable Power Solution

This 900W portable gasoline generator is designed for maximum portability, making it an ideal power source for campgrounds, emergency power outages, and construction sites. Featuring a lightweight design, it is easy to transport while delivering reliable performance. The unit is built with a 2-stroke engine and is fully compliant with major international emission standards including EPA-III and Euro V.

## Performance Metrics

### Peak Power

**800 W**

Peak Watts

### Running Power

**1000 W**

Running Watts

### Runtime at 50% Load

4.8 hours

### Noise Level
