Overview

A durable and versatile 4WD agricultural tractor designed for modern farming efficiency.

Robust 90HP 4WD Agricultural Tractor

The 90HP 4WD tractor is a versatile machine engineered for demanding agricultural tasks including plowing, tilling, and planting. It features a high-performance direct-injection vertical water-cooled 4-stroke engine and a responsive F10+R10 shuttle shift transmission. Designed for durability and efficiency, it includes a 100L fuel tank for extended operation and a specialized LUK dual-function dry clutch system.

Engine Performance

Rated Power

66.2 kW

Rated Power

Engine Type	Direct Injection Vertical Water Cooled 4-stroke
Number of Cylinders	4
Rated Speed	2200 r/min

Transmission & Drivetrain

Gearbox	F10+R10 Shuttle Shift
Clutch System	LUK 12-inch Dual-function Independent Dry Clutch
PTO Speed	540 rpm, 760 rpm

Physical Dimensions

Overall Dimensions (LxWxH)	4285 x 1960 x 2830 mm
Dry Mass (with Cab)	3480 kg

Utility

Tyre Sizes (F/R)	
<ul style="list-style-type: none">• 8.3-24 (Front)• 14.9-30 (Rear)	
Fuel Tank Capacity	100 L
Rear Linkage	II Rear Mount 3-point Linkage
