

90x140x32mm Tapered Roller Bearing

This single row tapered roller bearing has dimensions of 90mm x 140mm x 32mm. It offers a basic load capacity of 168KN to 270KN.

Overview

High-Performance Tapered Roller Bearing

This single row tapered roller bearing is engineered for demanding industrial applications, offering robust durability and optimal load distribution. With precise dimensions of 90mm x 140mm x 32mm, it is designed to deliver reliable performance in heavy-duty environments such as axles and gearboxes. Its high-quality construction ensures smooth operation and extended service life under significant operational loads.

Technical Specifications

Bearing Type	Single row tapered roller bearing
Dimensions	90mm x 140mm x 32mm
Weight	1.75 KGS

Performance Metrics

Basic Load Capacity

168 KN Minimum Load	270 KN Maximum Load
-------------------------------	-------------------------------

Running Speed Range	3200 - 4300 r/min
---------------------	-------------------

Logistics

Country of Origin	Japan
