

98L Glass Door Display Freezer

This display freezer is ideal for showcasing ice cream and other frozen food products. It is suitable for use in stores, shops, trade show stands and beach stores.

Product Overview

Professional Display Solution

The 98L Glass Door Display Freezer is an ideal solution for retail environments requiring reliable frozen storage with high visibility. Featuring a transparent glass door and internal LED lighting, this unit is designed to showcase products effectively while maintaining consistent temperatures between -18°C and -25°C. Its compact design and efficient compressor cooling make it a perfect fit for cafes, convenience stores, and small businesses looking to optimize their frozen goods presentation.
