Overview

Compact and portable design suitable for various personal spaces.

Versatile 9L Portable Cooling & Warming Solution

This portable 9L mini fridge is an ideal solution for bedrooms, offices, and vehicles, offering both cooling and warming capabilities. Designed for versatility, it operates on a 12V DC power supply for mobile use and supports AC 100V-240V for household convenience. With high-density EPS insulation and efficient semiconductor refrigeration, it ensures your beverages, snacks, or skincare products remain at the perfect temperature.

Technical Specifications

Capacity	9 L
Power Consumption	48W \pm 10%
Power Supply	DC 12V, AC 100V-240V
Refrigeration Principle	Semiconductor Refrigeration
Insulation Material	High density EPS

Performance

Cooling Performance	16-20°C below ambient temperature (25°C)
Heating Performance	50-60°C by thermostat

Accessories

Cable Lengths

2 m

Car Charger Cable

1.8 m

Household Cable

Logistics & Compliance

Certifications

CB • CE • KC • ETL • LFGB • GS • PSE • RoHS
