Product Overview

Extra Heavy Duty 9V Battery

This 9V size 6F22 extra heavy-duty zinc-carbon dry cell battery is engineered for reliable power in a variety of electronic devices. Featuring a full metal jacket construction and advanced leak-proof technology, it provides consistent performance for everyday applications. With a 3-year shelf life, this battery ensures you have dependable power available when needed.

Technical Specifications

DurataPlus Size 9V
DurataPlus 9V batteries are built with PowerLock Technology for a long-lasting performance. They have a 3-year shelf life and are perfectly compatible with most household and business devices. They are commonly used to power smoke detectors and alarm systems.

SPECIFICATION	
Type	6F22
Class	9V Zinc Carbon Dry Cell
Size No.	9V
Series	EXTRA HEAVY DUTY
Model	6F22

INCORPORATED BY DurataPlus

SHelf Life 3 years

Dimensions 50.5mm (L) x 26.5mm (W) x 17.5mm (H)

Weight 30g (1.06oz)

Material Full Metal Jacket

RoHS Compliant

RECYCLING Recyclable

Country of Origin China

Manufacturer DurataPlus

Barcode 27021 162 81 9 V / 1 year / 11 items / 1g

Model	Weight	Type

Technical specifications and application examples for the 9V battery.

Battery Type	6F22 9V
Class	Extra Heavy Duty
Nominal Voltage	9 V
Shelf Life	3 years
Exterior	Full Metal Jacket
HS Code	850610

Performance Metrics

Discharge Performance

Metric	Duration
IEC Standard	7 hours
Product Duration	11 hours

Key Features

Leak-Proof • Mercury-Free • Anti-Corrosion • Extra Heavy Duty

Logistics & Packaging

Packaging Configuration

- 1 Battery per Shrink Pack
- 12 Batteries per Inner Box
- 480 Batteries per Outer Carton

Carton Dimensions	270 x 241 x 243 mm
-------------------	--------------------

Gross Weight per Carton	18.5 kg
