

A10 Zinc Air Hearing Aid Battery 1.4V

This A10 zinc air battery provides a consistent 1.4V power supply. It is designed for optimal performance in hearing aids, ensuring clear and amplified sound.

Product Overview

Reliable Power for Hearing Devices

These A10 Zinc Air batteries are engineered to provide reliable and consistent power for a wide range of hearing aids. Operating at a stable 1.4V, they ensure optimal performance and extended usage for clear, amplified sound. The advanced Zinc Air technology delivers a steady power output, making them an essential choice for professional hearing care solutions.

Technical Specifications

Battery Technology

Zinc Air

Voltage

1.4 V

Nominal Voltage

Model Size

A10 (PR70)

Performance Features

Key Benefits

- Consistent power delivery
- Stable voltage output
- Optimized for clear sound amplification
- Extended usage life

Compatibility

Intended Application

Hearing Aids, Hörgeräte, Piles d'Appareils Auditifs, Pilas Para Audífonos
