Product Overview

A60 LED Filament Bulb Series

This A60 LED filament bulb series represents a revolution in lighting technology, blending the classic aesthetic of traditional Edison lamps with modern, energy-efficient LED performance. Designed to provide a 360-degree full light angle, these bulbs offer high luminous flux up to 140lm/W, making them an ideal sustainable choice for residential and commercial spaces. With options for dimmability and various color temperatures, they provide versatile and long-lasting illumination.

Technical Specifications

Available Wattages

- 2
- 4
- 6
- 7
- 8
- 12

Luminous Efficacy

140 lm/W
Max Efficiency

Color Temperature

2700-3000K, 5000-5500K

Rated Lifetime

30000 hours

Compatibility & Features

Available Bases

GU10 • E12 • E14 • E26 • E27 • MR11 • MR16 • G4 • G9 • G24

Dimmability

Yes

Compliance

Certifications

CE, RoHS
