Product Overview

High-Capacity Rechargeable Power

These AA Ni-MH rechargeable batteries offer a robust 2800mAh capacity, providing reliable and long-lasting energy for a variety of electronic devices. Designed for high-drain applications, they deliver consistent power output and can be recharged over 1000 times, making them a cost-effective and environmentally friendly alternative to disposable batteries. Their stable discharge rate ensures excellent performance across diverse operating temperatures.

Technical Specifications

Capacity	2800 mAh
Nominal Voltage	1.2 V
Cycle Life	More than 1000 times
Jacket Material	PVC/ALu foil
Certifications	CE, ROHS, SGS, MSDS

Performance Metrics

Key Performance Metrics

280 mA

Standard Charging Current

4.2 A

Max Discharge Current

Operating Environment

Temperature Range

Mode	Range
Charging	0 to 45 °C
Discharging	10 to 45 °C

Applications

Compatible Devices

- Toys
- Torches
- Remote controls
- Digital cameras
- Microphones
- Wireless doorbells
- Wireless headphones
- Multimeters
- Fire alarm systems

Logistics

OEM Production Lead Times

Quantity	Lead Time
Up to 100k pcs	10-15 days
100k - 500k pcs	15-20 days
Over 500k pcs	25-30 days
