

AA High Capacity Digital Lithium Batteries

These high-capacity AA digital lithium batteries provide optimal performance for digital devices. The 1.5V batteries are ideal for cameras and other high-drain electronics, ensuring long-lasting and reliable power.

Product Overview

High-Performance Power Solution

These high-capacity digital lithium batteries are engineered to deliver reliable, long-lasting power for demanding electronic devices. Designed specifically for high-drain applications such as digital cameras, they ensure consistent performance where standard batteries often fail. With a robust 1.5V output and certified manufacturing quality, these batteries are a dependable choice for professional equipment.

Technical Specifications

Voltage	1.5 V
Battery Size	AA
Pack Quantity	2

Performance Metrics

Key Performance Metrics

600 shots
Photo Capacity

Compliance & Standards

Certifications	ISO 9001:2000
