

# AA LR6 1.5V Alkaline Battery

This AA LR6 1.5V alkaline battery is a high-performance zinc-manganese dioxide battery. It provides a reliable and long-lasting power source for devices like remote controls, toys, and portable audio players.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Alkaline Power

This AA LR6 1.5V alkaline battery is designed for reliable and high-performance energy delivery. Utilizing advanced zinc-manganese dioxide chemistry, it provides a consistent power source for a wide array of everyday electronic devices. The battery features an aluminum jacket for durability and a shelf life of up to 2 years, making it a dependable choice for inventory and long-term use.

## Technical Specifications

|                             |   |
|-----------------------------|---|
| Nominal Voltage             | 1.5 V   |
| Battery Chemistry           | Zinc-Manganese Dioxide (Zn/MnO <sub>2</sub> ) |
| Jacket Material             | Aluminum                                      |
| Shelf Life                  | 2 years                                       |
| Certifications & Compliance | Mercury Free, Cadmium Free, CE                |

## Performance Data

### Discharge Metrics

| Model | Voltage (V) | Discharge Time |
|-------|-------------|----------------|
| LR03  | 1.5         | 160min         |
| LR6   | 1.5         | 380min         |
| LR14  | 1.5         | 19hours        |
| LR20  | 1.5         | 29hours        |
| 6LR61 | 1.5         | 720min         |

## Ordering Information

### Available Packaging

- Blister card
- Shrink wrap
