Product Overview

High-Performance Carbon Zinc Battery

This AA size R6P 1.5V carbon zinc dry battery is engineered for reliable performance in standard electronic devices. Featuring an advanced aluminum foil jacket, the design includes leak-proof protection to safeguard your equipment. With a commitment to environmental safety, this battery contains 0% mercury and 0% cadmium.

Technical Specifications

Battery Size	AA (R6P)
Nominal Voltage	1.5 V
Battery Chemistry	Carbon Zinc

Performance & Safety

Power Output

50 %
Increased Power

Safety Features	Leak-proof Protection, 0% Mercury, 0% Cadmium
Jacket Material	Aluminum Foil
