Product Overview

Reliable Power for Low-Drain Devices

This AA R6P 1.5V Zinc Carbon battery is designed to provide stable and consistent power for a wide range of everyday electronic devices. Featuring 0.00% mercury and cadmium content, it offers an environmentally conscious power solution without compromising on performance. These batteries are ideal for professional sourcing requirements where cost-effectiveness and standard compatibility are essential.

Technical Specifications

Key Performance Metrics

1.5 V Nominal Voltage	100 mins Discharge Time	3 years Shelf Life
---------------------------------	-----------------------------------	------------------------------

Battery Type Zinc Carbon (Dry Cell)

Size Standard AA / R6P

Safety & Environment

Compliance & Certifications

SGS • MSDS • 2006/66/EC • ISO9001

Environmental Profile 0.00% Mercury, 0.00% Cadmium, Lead-Free Composition

Logistics & Packaging

Packaging Configuration

- Unit Package: 4 pieces per shrink wrap
- Jacket Material: PVC / Aluminium
- Carton Gross Weight: 18.5 KGS
- Carton Dimensions: 37.5 x 18.5 x 22 cm

Usage Guidelines

Safety Precautions

- Do not connect improperly
- Do not disassemble
- Do not recharge
- Do not dispose of in fire
