

AA Size 1.5V General Purpose Battery

This is an AA size 1.5V battery designed for general-purpose electronic devices. It delivers reliable power for various applications.

Product Overview

Reliable Power Solutions

This AA size 1.5V battery is engineered for general-purpose electronic devices, providing a dependable power source for everyday household and professional equipment. The design prioritizes environmental safety by being completely mercury-free. It offers consistent performance to ensure your devices remain operational when you need them most.

Technical Specifications

Nominal Voltage

1.5 V
Voltage

Mercury Content

Mercury-free • 0.00% Mercury

Battery Size

AA (R6P UM-3)

Features

Suitable Applications

- General-purpose electronic devices
- Household equipment
- Portable electronics
