

AAA Alkaline Batteries 1.5V

AAA alkaline batteries provide 1.5V power for electronics. These mercury-free batteries ensure high performance and long life in devices requiring AAA cells.

Product Overview

High-Performance Alkaline Power

These AAA alkaline batteries provide reliable 1.5V power designed for high-performance and long-lasting energy in a wide variety of electronic devices. Engineered for efficiency, they are completely mercury-free, making them a safe and environmentally conscious choice for standard AAA battery applications. With a robust shelf life of 5 years, these batteries ensure you have dependable power ready whenever you need it.

Technical Specifications

Battery Size	AAA (LR03)
Nominal Voltage	1.5 V
Shelf Life	5 years
Compliance	Mercury-Free
Model Number	LR03G/2BP
