

AAA Alkaline Battery 1.5V

This AAA alkaline battery provides 1.5V of power. It is suitable for low-drain devices and provides long-lasting performance.

Product Overview

Reliable Power Performance

These AAA Alkaline batteries provide a stable 1.5V output, engineered for consistent performance in daily low-drain devices. Designed with environmental responsibility in mind, the construction is completely free of mercury and cadmium. They offer a dependable energy solution for standard household and professional electronic equipment.

Technical Specifications

Battery Chemistry	Alkaline
Voltage	1.5 V
Size	AAA

Environmental and Safety

Environmental Compliance	Mercury-free, Cadmium-free
--------------------------	----------------------------

Usage Applications

Common Applications

- Remote controls
- Toys
- Clocks
