

AAA Ni-MH Rechargeable Batteries

These are AAA nickel-metal hydride (Ni-MH) rechargeable batteries. They feature a nominal voltage of 1.2V and a capacity of 850mAh, with a minimum capacity of 780mAh.

Product Overview

High-Performance Rechargeable Power

These AAA Ni-MH rechargeable batteries are designed for consistent, long-lasting power across a wide range of electronic devices. Pre-charged and ready for immediate use, they offer a reliable alternative to single-use batteries. With a nominal voltage of 1.2V and a capacity of 850mAh, they provide dependable energy for professional and consumer applications.

Technical Specifications

Battery Size	AAA (HR03)
Chemistry	Ni-MH (Nickel-Metal Hydride)
Nominal Voltage	1.2 V
