Product Overview

High-Performance Abrasive Cloth

This abrasive cloth roll is engineered for professional sanding and polishing applications across a wide range of materials, including wood, ferrous and non-ferrous metals, plastics, and rubber. Utilizing advanced electro-coated technology, the grain is securely bonded to a resilient cloth backing with synthetic resin for increased sharpness and working efficiency. This versatile product is designed to handle demanding tasks while maintaining consistent performance.

Technical Specifications

Cloth Backing Weights

J-Weight • X-Weight • Y-Weight

Coating Density Options

- Close Coated
- Semi-open Coated
- Open Coated

| | |
|--------------------|--|
| Maximum Roll Width | 1400 mm |
| Grit Size Range | 60# - 1200# |
| Grain Material | A, C, Zinc-stearate coating (optional) |
| Coating Technology | Electro Coated |
