

Abrasive Cut-off Saw

This abrasive cut-off saw is designed for cutting through materials like concrete, asphalt, and metal. It features a high-performance engine, durable cutting wheel, and a robust frame for long-lasting use.

Overview

High-Performance Abrasive Cut-off Saw

This versatile cut-off saw is engineered for demanding construction and demolition tasks, offering powerful performance across concrete, asphalt, and metal. Designed with a robust frame and high-performance engine, it ensures consistent cutting power and long-lasting durability on the job site. The integrated water attachment system effectively suppresses dust and cools the blade, enhancing both operator safety and tool efficiency.

Engine & Performance

Engine Displacement

52 cc

Min Displacement

82 cc

Max Displacement

Power Source

High-performance gasoline engine

Capabilities

Primary Applications

- Construction
- Demolition
- Road work

Compatible Materials

Concrete, Asphalt, Metal

Safety & Maintenance

Safety & Operational Features

- Water attachment for dust suppression
- Blade cooling system
- Vibration dampening system
- Robust blade guard

Design

Construction Type

Robust Frame • Durable Cutting Wheel • Heavy-Duty

Ergonomic Design

Yes
