

Abrasive Cutting Disc for Electric Tools

This abrasive cutting disc is designed for use with electric tools. It is suitable for cutting various materials.

Overview

High-Performance Abrasive Cutting Disc

This abrasive cutting disc is engineered for precision and durability when used with electric tools. Designed to handle various materials, it features a thin profile for efficient operation and reduced material waste. Adhering to international quality standards, it ensures both safety and high-speed performance for professional industrial applications.

Key Performance Metrics

Featured Metrics

72 m/s

Max Operating Speed

1.2 mm

Thickness

125 mm

Outer Diameter

Technical Specifications

Dimensions (Metric)	125 x 1.2 x 22.23 mm
Dimensions (Imperial)	5" x 3/64" x 7/8"
Bore Diameter	22.23 mm

Compliance & Standards

Quality Certifications	ISO9001, T/ZZB 865-2018
