

Abrasive Cutting Disc for Metal - 80m/s

Abrasive cutting disc designed for high-speed cutting at 80m/s in metal applications. It is constructed with a reinforced resin bond for increased durability and safety during use with angle grinders and cut-off saws.

Product Overview

High-Performance Abrasive Cutting Disc

This abrasive cutting disc is engineered specifically for metal applications, offering robust performance for industrial and construction tasks. Designed for high-speed operation at 80m/s, it features a reinforced resin bond that enhances both durability and operator safety. It is a reliable solution compatible with standard angle grinders and cut-off saws.

Technical Specifications

Maximum Operating Speed

80 m/s

Max Speed

Application	Metal Cutting
Specification Code	27A24R
Key Features	Reinforced Resin Bond, High-Speed Rated, Industrial Grade

Compatibility

Compatible Tools

- Angle Grinders
- Cut-off Saws
