

Abrasive Cutting Wheel 41A30R8BF 80m/s

Abrasive cutting wheel designed for use with electric tools and accessories. Features a composition of 41A30R8BF for optimal cutting performance and durability, and operates at a maximum speed of 80m/s.

Product Overview

High-Performance Abrasive Cutting Solution

This abrasive cutting wheel is engineered for demanding industrial cutting applications, offering a balance of durability and precision. Designed for use with electric power tools, it features a specialized 41A30R8BF composition that ensures consistent performance. With a maximum operating speed of 80m/s, this wheel is built to handle rigorous cutting tasks efficiently.

Technical Specifications

Maximum Operating Speed

80 m/s

Max Speed

Composition Code	41A30R8BF
Primary Application	Cutting, Electric Tools
Country of Origin	China
