

Abrasive Cutting Wheel for Angle Grinders

This abrasive cutting wheel is designed for cutting applications using angle grinders. It is constructed from bonded abrasive grains, ensuring efficient material removal and a clean cut.

Product Overview

High-Performance Cutting Solution

This abrasive cutting wheel is engineered for precision and efficiency when working with iron and other hard materials. Designed specifically for angle grinders, it features a robust construction of bonded abrasive grains to ensure clean, consistent cuts. Its textured surface provides the necessary grip and durability for demanding metalworking applications.

Technical Details

Primary Application	Iron
Tool Compatibility	Angle Grinder
Construction	Bonded abrasive grains
