

Abrasive Cutting Wheel for Metal

Abrasive cutting wheel designed for use with angle grinders. It is suitable for cutting metal and other hard materials.

Product Overview

High-Performance Abrasive Cutting Wheel

This abrasive cutting wheel is engineered for precision cutting of metal and other hard materials using angle grinders and high-speed power tools. Featuring a reinforced construction, it ensures exceptional durability and safety during demanding industrial operations. The wheel is designed to meet rigorous international safety standards, providing reliable performance for professional B2B applications.

Technical Dimensions

Metric Dimensions

230 mm

Diameter

3 mm

Thickness

22.23 mm

Bore Size

Imperial Dimensions

9" x 1/8" x 7/8"

Performance & Safety

Maximum Linear Velocity

- 72 m/s
- 80 m/s

Maximum Rotation Speed

6650 RPM

Safety Compliance

EN12413, MPA Z-00390

Material Specifications

Abrasive Classification

A36 • P • WA • BF

Recommended Materials

- Metal
- Hard Materials

Manufacturing Data

Country of Origin

P.R.C
