Product Overview

Professional Abrasive Flap Wheel

This abrasive flap wheel with shaft is engineered for high-performance grinding, deburring, and polishing tasks. Featuring multiple overlapping abrasive flaps, it ensures consistent material removal and delivers a smooth surface finish. It is a versatile tool suitable for processing metal, wood, and plastic surfaces efficiently.

Technical Specifications

Dimensions	30x30x6 mm
Grit	P60
Maximum Operating Speed	80 m/s
Quantity per Pack	10

Key Features

Ideal Applications	Grinding, Deburring, Finishing, Polishing
Compatible Materials	Metal, Wood, Plastic
