

Abrasive Grinding and Polishing Stone Set

This abrasive stone set is designed for grinding and polishing applications. The stones come in different shapes and sizes and are suitable for use on metal, stone, and ceramics.

Product Overview

Professional Abrasive Stone Set

This versatile set of abrasive grinding and polishing stones is engineered for precision material removal and surface finishing. The collection includes various configurations, such as white corundum resin-bonded wheels, chrome corundum ceramic-bonded wheels, and green silicon carbide wheels. Designed for durability and effectiveness, these tools are suitable for demanding tasks on metal, stone, and ceramic surfaces.

Technical Specifications

Available Configurations

Material Type	Shape	Dimensions (mm)
White Corundum (Resin Bonded)	Barrel	255/205 x 200 x 100
Chrome Corundum (Ceramic Bond)	Cup	200 x 100 x 100
Green Silicon Carbide	Disc (Single Oblique Edge)	6" x 1/4" x 1/2"

Application

Primary Tasks

- Precision Grinding
- Honing
- Surface Polishing

Compatible Materials

Metal, Stone, Ceramics
