Product Overview

High-Performance Abrasive Grinding Wheels

These professional-grade grinding wheels are engineered for effective material removal and cutting applications in metalworking and construction. Featuring a reinforced construction with a central metal ring, they provide secure mounting and durability for high-speed power tools. These wheels are manufactured under strict quality management standards to ensure consistent performance and safety for demanding fabrication tasks.

Technical Specifications

Maximum Speed

8500 RPM
Max RPM

80 m/s
Max Velocity

Dimensions

180 x 6 x 22.2 mm

Grit Specification

A24RBF

Certifications & Standards

Compliance

ISO 9001, UKAS

Usage & Application

Compatible Materials

- Steel
- General Metal
- Construction Materials
