Product Overview

Professional Abrasive Sanding Belts

These high-quality abrasive sand cloth belts are engineered for efficient material removal and high-precision surface finishing. Featuring a robust cloth backing, the belts offer superior durability and longevity even under demanding industrial use. They are versatile tools designed to provide consistent performance across various applications, including grinding, sanding, and polishing on both wood and metal surfaces.

Technical Specifications

Compatible Materials

- Wood
- Metal

Usage Suitability

Industrial • DIY • Grinding • Polishing

Available Grit Sizes

P60, P80, P100

Series Identifier

GXK51-P
