

Abrasive Sanding Discs for Power Tools

Abrasive sanding discs are used with power tools to smooth surfaces. They are available in various diameters and grit sizes for coarse sanding to fine finishing.

Product Overview

Professional Abrasive Solutions

These abrasive sanding discs are engineered for high-performance material removal and surface finishing when paired with power tools. Designed for versatility, they are suitable for a wide range of materials including wood, metal, and plastic. Constructed with durable materials, these discs provide the consistent performance and longevity required for demanding professional applications.

Technical Specifications

Application Range

- Heavy material removal
- Intermediate sanding
- Fine surface finishing

Key Features

High Durability • Consistent Performance • Power Tool Compatible

Compatible Materials

Wood, Metal, Plastic
