

# Abrasive Sandpaper Roll

This abrasive sandpaper roll is designed for various sanding and grinding applications. It features a durable backing material and a consistent abrasive grit for effective material removal and surface finishing.

## Product Overview

### High-Performance Abrasive Sandpaper Roll

This high-performance abrasive sandpaper roll is engineered for demanding sanding and grinding applications. Featuring a durable backing material and a consistent abrasive grit, it ensures effective material removal and superior surface finishing results. Designed for versatility, it is suitable for use with both power tools and hand sanding blocks.

## Technical Specifications

Grit Rating	500 P-grade
Model Identifier	SP 23 E

## Usage

### Key Features

- Durable backing material
- Consistent abrasive distribution
- Effective material removal
- High-quality surface finishing

Compatible Methods	Power Tools, Hand Sanding Blocks
